Best pin system

EPS. Best pin system

EPS reliably protects private houses and is also very popular in clearly structured master key systems in office buildings, catering facilities or residential developments. EPS is the successful result of the continuous further development of tried and tested EVVA pin systems. High level of user comfort and durability make the system the best of pin systems.

The benefits of EPS at a glance

- › One key fits all
 - › For master key systems with a distinct structure
 - › Quick assembly thanks to modular design
 - › Maximum patent validity until 2027

EPS. One system, many details

EPS is a spring-loaded pin system with five or six active, spring-loaded scanning elements and offers up to 20 additional side coding variants. The keys' integrated tampering control within the cylinder and the dual-action locking pins offer a high level of security. The EPS key is a strong nickel silver key with a large key cross-section. EPS cylinders are available in compact and modular design.

Practical, handy and appealing

Optionally, EPS keys are available in a range of colours. The colour coding helps to easily distinguish between keys.

All-round protection

Copy keys, additional cylinders and lock charts are available from authorised EVVA Partners but only with corresponding proof of legitimacy, the EVVA security card.

Benefit from the security features

The reliable technology of the EPS cylinder offers lasting protection against illegal opening methods.
